THE OVUS

An award winning iconic piece inspired by the golden ratios of beauty, creating the perfect aesthetic harmony.

A modern interior scene featuring a gold chair and a lamp. The chair is made of a single piece of gold metal, with a dark cushion. The lamp has a dark, rectangular shade and a tall, dark base. The background is a dark, paneled wall with decorative elements. The floor is made of light-colored wood in a herringbone pattern. There are two large circular graphic elements: a light gray one at the top and a dark gray one at the bottom right.

SUPREME WORK- MANSHIP

The Icon – a modern throne that combines straight lines with round shapes, cradling the body while projecting energy forward and upward.
